CCSI Celebrates 10th Anniversary, Welcomes Microsoft Back to Vancouver

VANCOUVER, Wash. – June 03, 2008 – Creative Computer Solutions, Inc. (CCSI) is pleased to welcome the Microsoft Across America truck back to Vancouver on Thursday, June 12. The truck is a traveling lab and demonstration center that offers the chance to see and experience the latest and greatest Microsoft technologies in an up-close, personal way. CCSI hosted the truck last year as part of a client appreciation event whose success earned the company the spotlight profile in RSVP, a quarterly magazine for Microsoft certified partners throughout North America.

This time, the truck will play a central role in CCSI's celebration of its 10th anniversary of collaborating with businesses throughout Oregon and Southwest Washington. While the event runs from 10 AM – 2 PM, the anniversary will be officially commemorated at noon with a ribbon cutting. To celebrate its 10th anniversary, CCSI has also been offering its clients monthly, free-of-charge seminars on topics important to conducting business in today's marketplace, ranging from crafting effective human resources policies to implementing strategic marketing plans. CCSI continues to support a variety of charitable activities each year in their ongoing commitment to social responsibility. Making a contribution to the community in which it has done business for a decade, CCSI support has included the Schoolhouse Supplies Celebrity Spelling Bee, March of Dimes Jail and Bail, Evergreen School District Foundation and Making Strides Against Breast Cancer to name a few.

Throughout the day the CCSI team will be on hand to answer questions about how Microsoft technologies and services can help participants address their own business challenges. In addition to CCSI, a select number of other partners will attend and demonstrate how their product offerings compliment Microsoft technologies and how the combinations can help businesses seize greater opportunities.
